

RAHUL SHARMA

DATA ANALYTICS | POWER BI | EXCEL | TABLEAU | MYSQL

Mumbai, India | +91 91750 58104 | rvshama9175@gmail.com | rahuldata.com

PROFILE

Combines data analytics capabilities in **Power BI, Advanced Excel, Tableau and MySQL** with practical understanding of logistics, inventory and business operations. Approaches data with a commercial perspective - connecting numbers with business context to strengthen reporting, identify patterns and support informed decisions. Focused on developing analytics solutions that improve operational visibility, uncover opportunities for efficiency and create measurable business value.

TECHNICAL SKILLS

Power BI: Power Query, data modelling, interactive dashboards, DAX, KPI reporting, data transformation

Microsoft Excel: Advanced formulas, XLOOKUP, Pivot Tables & Charts, data cleaning, analysis and dashboard reporting

Tableau: Interactive dashboards, filters, calculated fields, KPI and trend analysis, business reporting

MySQL: Queries, joins, filtering, sorting, aggregations, database querying and analytical data extraction

Core Analytics: Data cleaning, data visualisation, dashboard development, KPI analysis, trend analysis and data interpretation

SELECTED ANALYTICS PROJECTS

Logistics Command Center | Power BI · MySQL · Power Query · DAX

Supply-chain and fleet intelligence covering route profitability, on-time delivery, utilisation, empty-return kilometres and operational cost leakage.

Customer Retention Intelligence | Power BI · MySQL · Excel · DAX

Customer-behaviour analysis covering churn, revenue at risk, cancellation patterns, explainable risk segmentation and retention scenarios.

The Decision Mirror | Tableau · MySQL · Excel · SQL

Scenario-analysis system exploring how price, staffing, discounts and operating-hour decisions affect contribution, customers and service outcomes.

Meeting Money | Power BI · MySQL · Excel · Power Query

Internal collaboration intelligence measuring meeting capacity cost and comparing live meetings with async updates, dashboards, approval workflows and shorter decision huddles.

DATA ANALYTICS TRAINING

IT Vedant

Data Analytics Program | Jan 2026 - Jun 2026

- Practical coursework in Power BI, Advanced Excel, Tableau and MySQL, including dashboard development, data cleaning, SQL querying, data modelling, KPI analysis and business reporting.

PROFESSIONAL EXPERIENCE

JRW Roadlines & Warehouse

Operations & Logistics Support | Jun 2025 - Present | Mumbai, India

- Support logistics and warehouse operations, shipment coordination, movement tracking and client updates.
- Maintain operational records and organise logistics data in Excel for routine reporting and tracking.

Milan Sales

Inventory & Operations Assistant | Sep 2023 - Feb 2024 | Mumbai, India

Part-time experience undertaken while pursuing B.Com

- Supported inventory tracking, inbound/outbound stock movement, stock records and day-to-day warehouse operations.

EDUCATION

Bachelor of Commerce (B.Com) - Dnyan Ganga College, University of Mumbai | May 2025

Higher Secondary Education - Commerce (12th Grade) - St. Xavier's High School | Jun 2020
